THE AMERICAN UNIVERSITY OF KURDISTAN

Problem · evidence

It's not one product. It's the whole market.

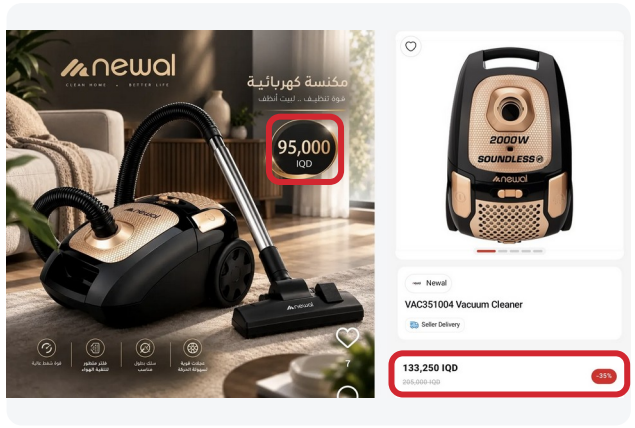

Same product, listed twice

iBazzar app · 60,000 vs 70,000 IQD

No price: 'call to order'

Instagram · a buyer asks: “How much is it?”

A fake “deal”

Same Newal vacuum: 95,000 on Instagram · “−35%” at 133,250 on Miswag

97% of 179 surveyed shoppers notice big price gaps on the same item

55% of merchants pick answering “price?” messages as a top headache — the most common answer

Screenshots Sep–Oct 2026 (shop names and phone numbers blurred) · Cheapify market survey, n=199 (179 shoppers, 20 merchants), Sep–Oct 2026.

Solution

One product. One page. Every seller.

Anker Power Bank 25,000 mAh · 165 W

One page · every verified seller

Seller	Item	Delivery	Doorstep total	Arrives	
Store A · Duhok	92,000	+3,000	**95,000 IQD**	Today	BEST VALUE
Store D · Erbil	91,000	+5,000	**96,000 IQD**	1–2 days	
Store B · Duhok	99,000	+3,000	**102,000 IQD**	Today	
Store C · Duhok	121,000	+3,000	**124,000 IQD**	Today	

1. **Lowest doorstep total**
2. **Fastest delivery**
3. **Best seller rating**

Ranking can't be bought.

Value proposition

Shoppers save. Merchants sell.

For shoppers

Every price, side by side
No more checking ten pages

Order in 30 seconds
No “price?” DMs, no waiting

Cash on delivery or card
Doorstep total shown upfront

For merchants

Orders, not interrogations
Ready orders with address and variant

Free dashboard
Stock, orders and payouts in one place

Fair, low fee
About 3.8% on a typical 25,000 IQD order

Target market

Duhok first: about 1 million people.

Iraq		Duhok governorate		Launch area: Duhok · Semel · Zakho	
People		People		People	
46.1M	census	1.60M	census	1.06M	census
Internet users		Internet users		Internet users	
39.6M	published	≈ 1.34M	estimate	≈ 0.89M	estimate
Online shopping / year		Online shopping / year		Online shopping / year	
$1.32B	published	≈ $46M	estimate	≈ $30M	estimate

Break-even needs only about 0.4% of the launch area's online shopping.

Launch: Duhok · Semel · Zakho — Next: Erbil · Mosul · Sulaymaniyah — Then: all of Iraq

Population: 2024 national census (Iraqi Ministry of Planning). Internet users: DataReportal, Digital 2026: Iraq. E-commerce: ECDB, Iraq 2025. Duhok figures marked “estimate” = Iraq rate × Duhok population share.

Target customers

Who we serve.

Shoppers

target groups

Young professionals · 23–38

Tech, gadgets, perfume — no time for DMs

Families · 26–48

Kitchen, home, personal care — savings and reliable delivery

Students & deal hunters · 18–24

Chargers, cables, gaming — refuse to overpay

88% of 179 surveyed shoppers would use an app like Cheapify

Merchants

Social-media shops in Duhok

Instagram · Facebook · TikTok
1,500–50,000 followers
20–150 products
Tech, accessories, beauty, home, perfume

85% sell on Instagram or Facebook

75% want to try Cheapify

of 20 surveyed merchants

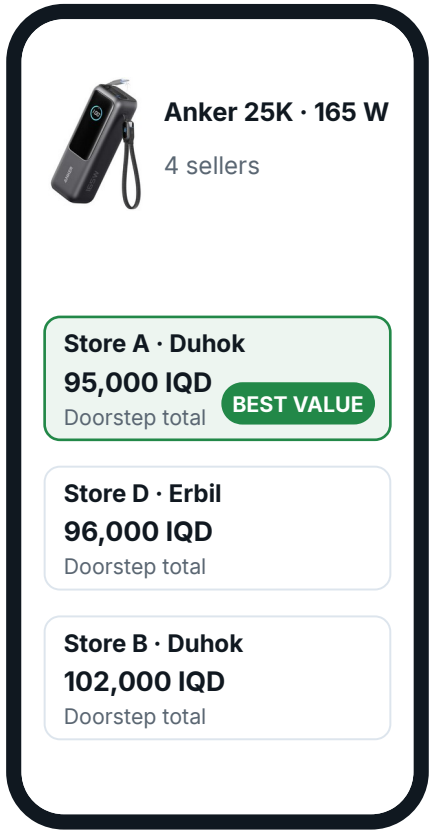

Age groups are our targeting plan — the survey did not ask age. Survey: Cheapify market survey, n=199 (179 shoppers, 20 merchants), Sep–Oct 2026.

Business model

We earn only when an order is delivered.

Shopper pays 28,000 IQD (25,000 item + 3,000 Duhok delivery)

950 fee + 500 delivery margin

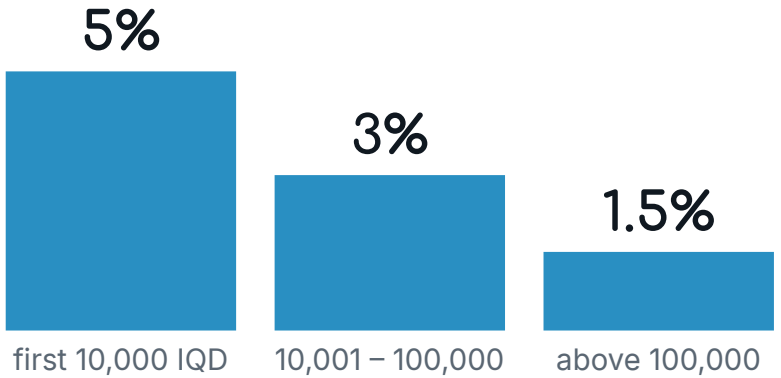

Merchant 24,050 IQD — keeps 96% of the item price

Courier 2,500

Cheapify 1,450

Our fee gets lighter as prices rise

From our 1,450 IQD

WhatsApp order messages	**−90**
Login codes	**−25**
Share of returns	**−20**
Re-sending failed deliveries	**−200**
Profit per delivered order	**1,115 IQD**

Example: 25,000 IQD item, cash on delivery, Duhok city; courier rate 2,500 IQD quoted by Fast Delivery (Duhok). The delivery margin applies once the courier contract is signed. Card processing fees not yet quoted.

Growth strategy

We grow on two sides: stores and shoppers.

Stores

I sign the first 20 stores in person
Bazaar visits, Instagram outreach, a 45-second demo video

A founding offer they can't ignore
0% commission in month 1 + their products in our paid ads

Their followers come too
Store link in bio and in replies to “price?” comments

Shoppers

Targeted ads across Duhok
Facebook, Instagram, TikTok — real products, real prices

Short videos
“The old way vs the Cheapify way”

Campus & workplace deals
UoD, AUK, Nawroz and office hubs

Waitlist & referrals
~52 contacts ready · credits only after a delivered order

More stores → Lower prices → More shoppers → More orders

german cooperation

THE AMERICAN UNIVERSITY OF KURDISTAN

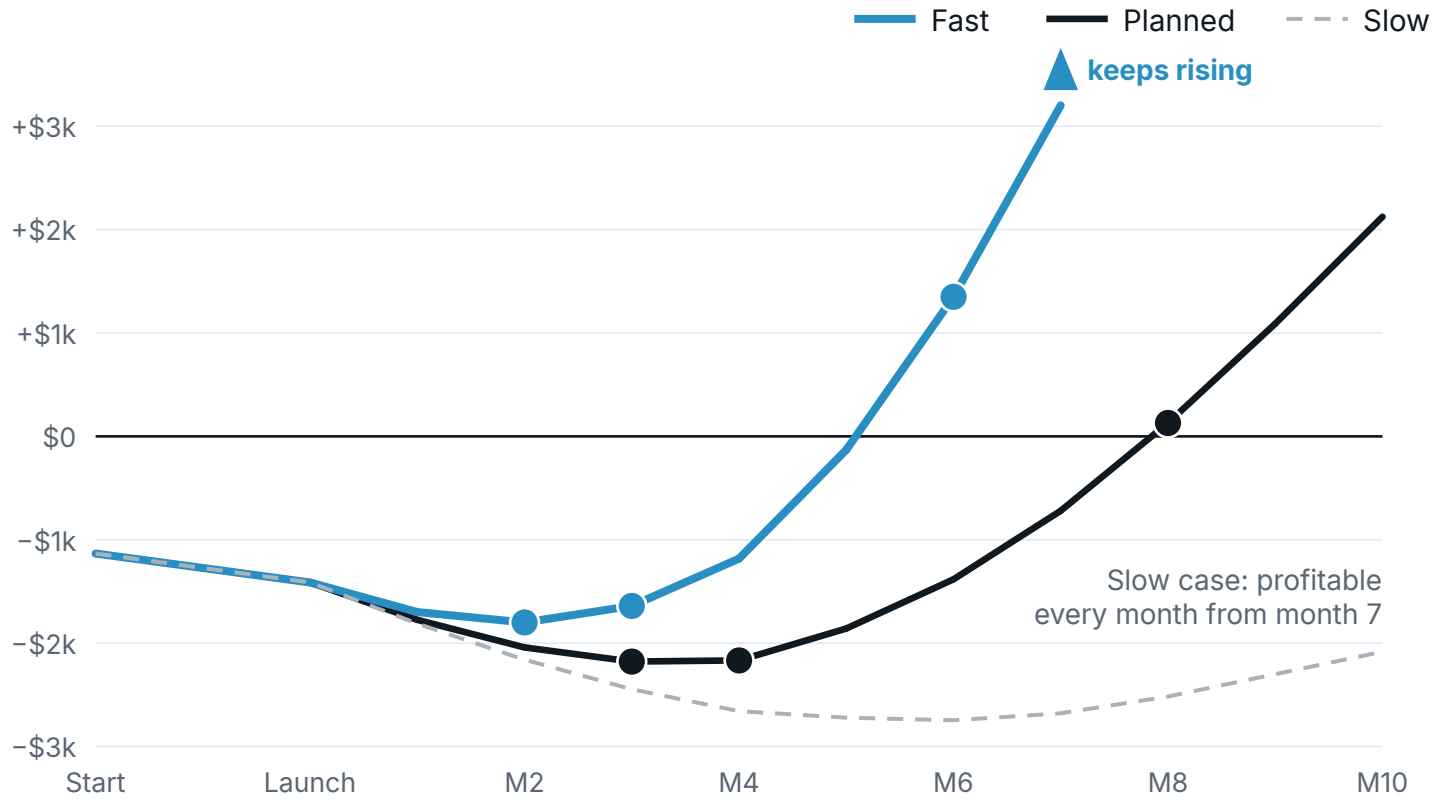

Financial feasibility

Break-even at about 20 orders a day.

~585 orders / month
break-even · about 20 a day

1,115 IQD
profit per delivered order

	Fast	Planned
Lowest cash point	−$1,800 (month 2)	−$2,180 (month 3)
Monthly break-even	Month 3	Month 4
All losses recovered	Month 6	Month 8

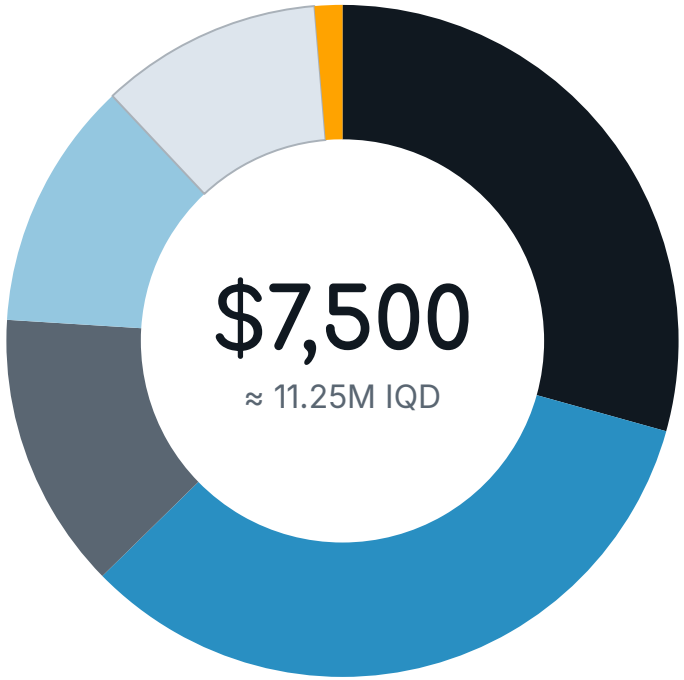

Planned: orders grow 100 → 2,000 a month; Fast: twice that pace; Slow: half. Costs 652,000 IQD/month after launch (790,000 from month 6), incl. 1.7M IQD startup. Assumes 25,000 IQD average order and a signed courier contract. USD at 1,500 IQD.

THE AMERICAN UNIVERSITY OF KURDISTAN

Funding

What $7,500 makes possible.

Launch gap (until break-even)	**$2,200**
Growth marketing	**$2,500**
Registration & legal	**$1,000**
Merchant kits & packaging	**$900**
Reserve	**$800**
Pilot test (10–20 orders)	**$100**

Each amount has a job

$7,500 — Grow fast
+ growth marketing and founding-store kits → aims for the fast case

$4,500 — Launch properly
+ hand-run pilot, company registration (unlocks the courier contract and card payments), larger reserve

$2,500 — Reach break-even safely
Covers the cash gap until monthly break-even

No salaries. No developers. I build the platform myself.

german cooperation
DEUTSCHE ZUSAMMENARBEIT

CENTER FOR ACADEMIC AND PROFESSIONAL ADVANCEMENT
THE AMERICAN UNIVERSITY OF KURDISTAN

Funding is done — what now?

Grant → pilot → launch → break-even.

First — 1

Register the company & sign the courier contract

Rates already quoted

Next — 2

Hand-run pilot: 10–20 real orders

Measure real order size and costs

Launch — 3

20 founding stores go live in Duhok

Cash on delivery; card soon after

Month 4 — 4

Monthly break-even

About 600 orders a month

Month 7+ — 5

Erbil · Mosul · Sulaymaniyah

Then all of Iraq

We report monthly: delivered orders · sales volume · active stores · repeat orders · delivery time

Appendix

Unit economics per order

Per 25,000 IQD order (Duhok city)	IQD
Platform fee	+950
Delivery margin (3,000 charged − 2,500 courier)	+500
WhatsApp notifications	−90
Login codes (OTP)	−25
Returns	−20
Failed-delivery re-attempts	−200
Kept per delivered order	**+1,115**

Break-even (monthly costs 652,000 IQD after launch, incl. a capped 225,000 incentive pool)

Case	Kept per order	Break-even orders / month
Base case	1,115	~585
Courier contract not signed	615	~1,060
Average order 20,000 IQD	965	~676
Incentive pool doubled	1,115	~787

Appendix

Three growth scenarios

Scenario	Orders by month 6	Lowest cash point	Monthly break-even	All losses recovered
Fast (2× plan)	2,700 / month	−$1,800 (month 2)	Month 3	Month 6
Planning	1,350 / month	−$2,180 (month 3)	Month 4	Month 8
Slow (half of plan)	675 / month	−$2,750 (month 6)	Month 7	~Month 20

Includes 1.7M IQD startup costs and two build months before launch. USD at 1,500 IQD.

CENTER FOR ACADEMIC AND PROFESSIONAL ADVANCEMENT
THE AMERICAN UNIVERSITY OF KURDISTAN

Appendix

Survey: what 199 people told us

Shoppers (179)

97% notice price gaps on the same item (39% often see large gaps)

88% would use a side-by-side app · 10% maybe · 2% prefer DMs

Top annoyances: untrusted / duplicate pages ~52% · found it cheaper after buying ~47% · DM just to ask the price ~46% · delivery delays ~27%

~52 usable beta-waitlist contacts

Merchants (20)

85% sell on Instagram / Facebook

75% would try Cheapify · 15% maybe (depends on commission) · 10% no

Top headaches: “price?” DMs 55% · price conflicts 45% · cost of own app/site 35% · manual delivery coordination 35%

~8 valid pilot-store leads

Limits: self-selected sample; only 10 Kurdish-language responses; stated intent is not purchases — the hand-run pilot measures real behavior.

Appendix

Six documented price cases

Product	Lowest	Highest	Gap	Where
Anker power bank 25K 165W	90,000 (Instagram)	200,000 (Miswag)	+122%	Instagram, iBazzar, Miswag
ASUS VA24EHF monitor	135,000 (Elryan)	163,350 (Miswag)	+21%	Elryan, Miswag
Hoco HX80 coffee maker	25,000 (Instagram)	35,280 (Miswag)	+41%	Instagram, Miswag
Newal 2000W vacuum	95,000 (Instagram)	133,250 (Miswag)	+40%	Instagram, Miswag
Xiaomi 165W power bank	60,000	70,000	+17%	Same app (iBazzar)
Coffee machines (two posts)	—	—	No price shown	Instagram: “call / DM to order”

Screenshots Sep–Oct 2026; Instagram posts dated Apr–Oct 2026.

Appendix

Top risks and how we handle them

Risk	How we handle it
Buyers and sellers bypass the app	Low fee (~3.8%), no contact details on parcels, credits and ratings count only on-platform
Slower growth than planned	Plan is already conservative; half-speed case capped at ~$2,750; hand-run pilot tests demand before spending
Courier contract delayed	Registration first (budgeted); second courier quote as fallback; without the margin, break-even ≈ 1,060 orders/month
Failed deliveries ("not at home")	One free re-attempt; 3 failures remove cash-on-delivery; WhatsApp reminder before delivery
Courier transfers cash late	Contract sets a transfer deadline (target 24 h); merchants are paid only after the money arrives; card payments reduce cash

Appendix

How an order flows

1. **Checkout (cash or card)**
2. **Merchant accepts**
3. **Sealed package + waybill**
4. **Courier pickup**
5. **Delivery (cash collected)**
6. **Courier transfers to Cheapify**
7. **Merchant paid after 48 h**

Returns: 48 hours — faulty item: merchant pays the return; change of mind: customer pays 3,000 IQD.

Refunds: card → back to the card; cash orders → Cheapify credit, or electronic transfer for faulty items.

Failed delivery: one free re-attempt, then back to the merchant.

Packaging: opaque and sealed; tamper tape on orders ≥ 50,000 IQD.

german cooperation
DEUTSCHE ZUSAMMENARBEIT

THE AMERICAN UNIVERSITY OF KURDISTAN

Appendix

How we sized Duhok

Figure	Value	How	Source
Launch-area population	1,062,224	Duhok 497,029 + Zakho 398,876 + Semel 166,319	2024 census
Duhok governorate population	1,599,871	—	2024 census
Launch-area internet users	≈ 0.89M	1,062,224 × 83.8%	DataReportal rate (Iraq)
Launch-area online shopping	≈ $30M / year	2.30% of Iraq's population × $1.32B	ECDB Iraq 2025
Break-even sales	≈ $117,000 / year	585 orders × 25,000 IQD × 12 ÷ 1,500	Cheapify model
Share needed	≈ 0.4%	$117,000 ÷ $30M	—

No official Duhok internet or e-commerce figures exist; estimates use Iraq-wide rates. Duhok is 80% urban, so these are likely conservative.
